Electricity crisis in Bophelong

Bolpelong and its surrounding extensions (Muvhango) have been hit by severe thunderstorm on Saturday, 05 April 2008. The storm has severely damaged the power stations and power lines thus leaving the area in darkness.

The electricians are currently working on restoring back the electricity in the area. Members of the public area warned to consider any power lines to be alive at all times.

The municipality apologises for any inconvenience caused by this unfortunate situation.
